Notes:

1. Data were obtained through a survey of research hospitals or from financial statements. Information for Alberta and Newfoundland was not available. Information for Ontario was coordinated in part through CAHO (Council of Academic Hospitals of Ontario); CAHO's 24 research hospitals are working to establish a detailed common research finance and impact reporting framework. Most CAHO members are using this framework to report "Total Research Income" and "Total Researchers who Conduct Research".
2. Research income includes all funds (direct and indirect) to support research received from all sources (internal and external). Some members of CAHO (indicated with an asterisk *) provided research expenditure data. Other institutions provided research income data.
3. CAHO members report on total faculty-level researchers: Core (75% or more of their time protected for research; had an active research account on March 31, 2013; may be clinicians and PhDs with a primary affiliation with the hospital/university). Non-core (less than 75% of their time protected for research; had an active research account on March 31, 2013; may be clinicians and PhDs with a primary affiliation with the hospital/university). Postdoctoral fellows and graduate students are not reflected in the core/non-core data.
4. Data are provided for the main hospital(s) including their affiliated hospitals and research institutes/centres, where applicable.
5. FY2012 figures may have been adjusted as more accurate information became available.

*Member of CAHO. Provided total faculty-level researcher count and research expenditure data for FY2013.

**Based on a head count of researchers/scientists/investigators/clinician-researchers conducting research. Does not include research fellows/post docs, technicians, students or support staff.

na = not available

^(a) Research income amounts were combined as these hospitals have one research institute.

^(b) As of FY2013, data for the CHUQ and CHA are combined as the CHU de Québec.

^(c) Data for St. Boniface Hospital are not included with WRHA.
