

**Spotlight on University Research Publication Intensity⁺ Growth
2004-2009
Medical/Doctoral***

Rank	University	Research Publication Intensity ⁺		
		2009	2004	% Change 2004-2009
1	University of Toronto	3.6	2.5	43.0
2	Université Laval	1.4	1.0	41.1
3	University of Western Ontario	2.0	1.4	40.6
4	University of Manitoba	1.3	0.9	38.1
5	University of Calgary	1.8	1.3	33.6
6	University of Saskatchewan	1.3	1.0	30.4
7	University of Alberta	2.6	2.0	29.9
8	University of Ottawa	1.9	1.5	29.8
9	Memorial University of Newfoundland	0.7	0.6	29.2
10	Queen's University	1.9	1.5	26.8
11	Université de Sherbrooke	0.9	0.7	25.0
12	McMaster University	2.3	1.9	22.7
13	Université de Montréal	1.9	1.5	20.7
14	Dalhousie University	1.5	1.2	18.9
15	University of British Columbia	2.4	2.1	15.1
16	McGill University*	2.7	2.6	5.8
	Tier average (16)	2.1	1.6	28.2
	Total universities average (43)	1.6	1.3	25.4

⁺Publication intensity is defined as the total number of publications per full-time faculty (full, associate and assistant). Publication data are offset with faculty data by approximately 2.5 years. This offset allows for the research to be completed and published. It is understood that this time period varies for different disciplines, therefore, the offset of 2.5 years is an average. The publication calendar year 2009 is offset with the number of faculty for the academic year 2006-2007; the publication calendar year 2004 is offset with the academic year 2001-2002.

*Universities with a medical school (excluding Lakehead and Laurentian Universities).

Notes:

1. Based on full-service universities that have been on the Top 50 list and had 50 or more publications in all 6 years.
2. Publication data were obtained from Observatoire des sciences et des technologies' (OST) Canadian bibliometric database which contains data from the SCI-Expanded, SSCI and AHCI databases of Thomson Reuters.
3. Faculty data were obtained from Statistics Canada, Conférence des recteurs et des principaux des universités du Québec (CREPUQ) and the RESEARCH Infosource Canadian University R&D Database. For confidentiality reasons, Statistics Canada randomly rounds faculty numbers either up or down by a multiple of "3".
4. Numbers may not calculate exactly due to rounding.

RESEARCH Infosource Inc. is Canada's source of R&D intelligence
