Spotlight on Two Decades of University Research Progress Comprehensive*

*Universities with a wide range of undergraduate and graduate programs

Notes:

Research Income Data

1. Based on full-service universities on the Top 50 Research Universities list for all 20 years; and reported research income from both corporate and not-for-profit sources in FY2001 and FY2020.
2. Total Research Income: funds to support research received in the form of a grant, contribution or contract from all sources external to the institution.
3. Corporate and Not-for-Profit Research Income: funds to support research received in the form of a grant or contract from corporate and not-for-profit sources respectively.
4. Financial data were obtained from Statistics Canada.

Research Publications Data:

1. Based on full-service universities on the Top 50 Research Universities list for all 20 years; and reported research, international and cross-sector publications in both 2000 and 2019.
2. Total University Research Publications: publications by researchers affiliated with Canadian universities or research hospitals. To be included a university had to have more than 50 publications in 2000.
3. University International Collaboration Publications: publications that were co-authored with researchers outside of Canada. To be included a university had to have more than 10 international collaboration publications in 2000.
4. University Cross-sector Collaboration Publications: publications that were co-authored with researchers from a Canadian non-university institution. To be included a university had to have more than 5 cross-sector collaboration publications in 2000.
5. Publications with multiple authors from different institutions were counted once for each university listed on the authored publication.
6. Publication data were obtained from Observatoire des sciences et des technologies (Clarivate Analytics – Web of Science) publications data 2000-2019 (latest final year available).
